A deficiency of overall attendance to the extent of 15% may be condoned by the Principal on the recommendation of Head of the Department on being satisfied that the same deficiency in attendance was due to circumstances beyond the control of the student.  
For availing such Condonation, a student will have to apply to the Head of concerned department along with requisite documents. However the decision in this matter will be finally taken by the Principal.

**N-9.6** In case the condonation of attendance have been rejected or overall attendance is below 60% of the total number of classes including lectures/ tutorials and practicals, his/her attendance in individual courses shall be considered. If in any course his/her attendance is minimum 60%, he/she shall be eligible to appear in end semester examination of that course. If the attendance in a particular course is below 60% of such student[s], he/ she shall not be eligible to appear for the regular end semester examination and its resit examination[if any] and shall be awarded 'I' grade in that course. This grade shall appear in the grade card till the successful completion of course requirements of that course. These students shall be eligible to appear in the successive end semester examination[s] and corresponding resit examination[s] [if any]. The marks earned by such students in continual evaluation in that Course shall remain unchanged, however the option for **forgo** shall be available in the 'Application for Examination' as ex-student.

An examinee securing 'I' grade in any course of an examination of a programme shall have an option to forego his/her continuous assessment marks in a course or courses. In such cases he/she shall be examined for a total marks comprising theory/practical end semester examination and continuous assessment together, at his/her successive attempt at the examination. Such an option can be availed by an examinee in case he/she is appearing for the successive attempts at the examination as ex-student for that particular course. A student who is detained from appearing in an examination in a course(s) for lack of attendance can exercise the option of forego in successive attempts at the examination as ex-student. To avail this, the examinee would indicate the same in his or her 'Application for the examination' and the option once exercised, shall be 'Final and Binding' on the examinee concerned for all the subsequent examinations in that course. For the examinee opting for forego, his/her marks in continuous assessment shall be ascertained proportionately on the basis of his/her marks in the end semester examination of that course.

An examinee can opt for forego of his/her marks in continuous assessment of a practical course only after submission of 'Term work completion' certificate

issued by the concerned head of the department along with the 'Application for the examination'.

The decision in this regard taken by the Chairman of the Academic Council will be final.

## 10. GRADING

### N-10.1 The Grading System

**N-10.1.1** For every course taken by a student, he/she shall assign a grade based on his/her combined performance in all components of evaluation scheme of a course. The grade indicates a qualitative assessment of the student's performance and is associated with equivalent number called a grade point.

**N-10.1.2** The academic performance of a student shall be graded on a ten-point scale following guidelines Table N-10.1.2

TABLE N-10.1.2

Academic Performance	Grades	Grade Points
Outstanding	O	10
Excellent	A+	9
Very Good	A	8
Good	B+	7
Above Average	B	6
Average	C	5
Pass	P	4
Fail	F	0
Incomplete Course requirements (Detention)	I	-
Temporary Withdrawal	W	-
Non Completion of Project, Extension in Projects	X	-
Absent in Examination	Ab	-

Explanation:

**'F' Grade**

- The 'F' grade denotes poor performance amounting to failure.
- A student has to repeat all courses in which he/ she obtains 'F' grade, till a passing grade is obtained.
- For the elective courses in which 'F' grade has been obtained, the student has to take the same course.

**'Ab' Grade:**

This grade indicates absence in End Semester Examination

**'W' Grade:**

This refers to withdrawal from the semester/year as per the regulations.

**'X' Grade:**

This grade is awarded for incomplete Project work and will be converted to a regular grade on the completion of the Project work and its evaluation.

**'T' Grade:**

This grade stands for non-completion of course requirement (Detention).

**N-10.1.3** The letter Grades (up to 'P' only in theory courses and practical courses) awarded to a student in all the credit courses shall be converted into a SGPA and CGPA to be calculated as given in **Regulation N-10.9**.

**N-10.1.4** For computation of Standard Relative Grades, for the evaluation of the academic performance of an examinee in a course, in Re-Sit/immediate consecutive Backlog Examination, the Mean and the Standard Deviation would be the same as the Mean and Standard Deviation in the End Semester Examination for which the Re-Sit Examination was conducted. For further consecutive backlog examinations, the mean and standard deviation would be calculated with the regular examinee of that course.

**N-10.1.5** A student passing a course in Re-Sit examination shall be treated as having cleared the course in First Attempt.

**N-10.1.6** In case, an ex-student appears for examination of the course along with regular students appearing in that course then the cut-off marks of the regular examination shall be applicable.

**N-10.2 Guidelines for Award of Grades**

Following are the general guidelines for the award of grades:

- a) In general standard relative grading system will be followed.
- b) In any case, if the number of regular students opting a given subject is less than or equal to 30 of UG programme, the grades will be awarded as per absolute grading system. Also for Seminar/Project Course/ Liberal Learning Courses/ Indian Knowledge System/ Ability Enhancement Course of IV Semester B.Tech./ Value Education Courses/ Community Engagement Project/ Field Project absolute grading system shall be followed irrespective of number of students registered in the course.
- c) For each student, evaluation in different components of a course shall be done in absolute marks considering the weightage in the scheme.
- d) The marks of various components shall be added to get total marks secured on a 100-points scale and should be rounded off.
- e) The provisional grades shall be awarded by the Examination Committee. The grades shall be finalized within thirty working days after the End Semester Examination including moderation by Grade moderation committee of respective BoS.
- f) In case of audit courses the students would be awarded grades as follows
  - i. 'P' for Pass
  - ii. 'F' for Fail

The grades shall be awarded by the course coordinators and communicated to the controller of examinations. The course coordinator shall decide and declare the mode of evaluation for the audit courses within the date prescribed by the Dean Academics.

**N-10.3 Standard Relative Grading System**

**Computation of Standard Relative Grades**

If sample size (number of students appearing in a course) is **greater than 30** then **Relative Grading System** is used as per **Table N-10.3** given below.

For award of suitable **pass grade** in a Theory and Practical Courses, student must have to secure atleast **20% of Total ESE marks** in that Course.

Average ( $\bar{X}$ ) and standard deviation ( $\sigma$ ) should be calculated as per the following equations.

$$\text{Average} = \bar{X} = \frac{\sum \text{marks}}{n}$$

Where, n = Total No. of Examinee - Detained Examinee

$$\text{Standard deviation} = \sigma = \sqrt{\frac{\sum (X - \bar{X})^2}{(n-1)}}$$

Where X = Individual marks of each students.

**Table N-10.3 : Awards of Grade Using Relative Grading System**

RANGE OF MARKS			GRADE ALLOTTED
	Marks obtained	$\geq \text{Average} + 1.5 \sigma$	O
$\text{Average} + 1.5\sigma >$	Marks obtained	$\geq \text{Average} + 1.0 \sigma$	A <sup>+</sup>
$\text{Average} + 1.0 \sigma >$	Marks obtained	$\geq \text{Average} + 0.5 \sigma$	A
$\text{Average} + 0.5 \sigma >$	Marks obtained	$\geq \text{Average}$	B <sup>+</sup>
$\text{Average} >$	Marks obtained	$\geq \text{Average} - 0.5 \sigma$	B
$\text{Average} - 0.5\sigma >$	Marks obtained	$\geq \text{Average} - 1.0 \sigma$	C
$\text{Average} - 1.0 \sigma >$	Marks obtained	$\geq \text{Average} - 1.5 \sigma$	P
	Marks obtained	$< \text{Average} - 1.5 \sigma$	F

The award of grades for Theory Courses of 100 marks and Practical Courses of 50 marks will be subjected to the following process: However, for Theory Courses of 50 marks appropriate calculations must be carried out.

A) THEORY SUBJECTS (For UG)

If  $(\bar{X} - 1.5 \sigma) > 40$  then grade calculation for B, C, P & F shall be as given below, while that for O, A+, A & B+ shall be same as per Table N-10.3.

$$B \Rightarrow \bar{X} - (\bar{X} - 40)/3,$$

$$C \geq \bar{X} - (\bar{X} - 40) * 2/3,$$

$$P \geq \bar{X} - (\bar{X} - 40) * 3/3,$$

$$F < \bar{X} - (\bar{X} - 40) * 3/3$$

B) PRACTICAL SUBJECTS (UG):

if  $(\bar{X} - 1.5 \sigma) > 25$  then grades calculation for B, C, P & F shall be as given below, while that for O, A+, A & B+ shall be same as per Table N-10.3

$$B \Rightarrow \bar{X} - (\bar{X} - 25)/3,$$

$$C \geq \bar{X} - (\bar{X} - 25) * 2/3,$$

$$P \geq \bar{X} - (\bar{X} - 25) * 3/3,$$

$$F < \bar{X} - (\bar{X} - 25) * 3/3$$

**N-10.4 Award of Grade Based on Absolute Marks System**

If sample size (number of regular students appearing in a course) is **less than or equal to 30** in theory and practical courses then **Absolute Grading System** is used as per **Table N-10.4 (a) & (b)**. Absolute marks system shall also be followed for Seminar/ Project Courses irrespective of number of students registered in the course.

For the award of grades in a course, all component-wise evaluation is done in marks. The marks of different components viz. Teachers Assessment Examination(TAE), Class Assessment Examination(CAE), End- Semester-Examination (ESE), are reduced to relative weightages of each component as given in Scheme of Examination. A student will be awarded suitable pass grade in that course[Theory and Practical] only if he/she has scored at least 20% of Total ESE Marks of that Course. Marks so obtained would be converted to grades at the end of semester, as per the guidelines given below:

**Table. N-10.4 (a) Awards of Grade Using Absolute Method**

10. Student having undertaken Improvement Examination will not be eligible for the award of any medal/merit position.

11. The student shall be issued a fresh replacement grade card indicating the new grade with a mark which shall be explained as 'Improved Grade' only if he/she has improved the grades. The old grade card must be submitted to the concerned office before issue of new grade card.

12. For calculation of standard relative grade for evaluation of the academic performance of an examinee in a course in improvement examination, the mean, standard deviation and cutoff of grades of that course in the regular examination shall be applicable.

### **N-10.6 Grade Moderation Committee**

**N-10.6.1** The Grade Moderation Committee for different programmes shall be appointed semester wise by the Chairman, Academic Council. ### N-10.7 Calculation of SGPA and CGPA

#### Calculation of Semester Grade Point Average (SGPA)

The performance of a student in a semester is indicated by a number called SGPA. The SGPA is the weighted average of the grade points obtained in all the courses registered by the student during the semester.

$$SGPA = \frac{\sum C_i P_i + C_a P_a}{\sum C_i}$$

Where,

$C_i$  = the number of credits for the  $i^{\text{th}}$  course of a semester for which SGPA is to be calculated.

$P_i$  = Grade points earned in the  $i^{\text{th}}$  course.

$i = 1, 2, \dots, n$  represent the number of courses in which a student is registered in the concerned semester.

$C_a=1$  ; Incentive credit

$P_a$  = Grade point for participating in activities of incentive scheme.

SGPA is rounded up to two decimal places only and SGPA shall not exceed 10.

#### Calculation of Cumulative Grade Point Average (CGPA)

An up to date assessment of the overall performance of a student from the time of his first registration is obtained by calculating a number called CGPA, which is weighted average of the grade points obtained in all the courses registered by the student since he/she entered the Institution.

$$CGPA = \frac{\sum C_j P_j + \sum C_{al} P_{al} + IPG}{\sum C_j}$$

Where,

$C_j$  = the number of credits for the  $j^{\text{th}}$  course up to the semester for which CGPA is to be calculated.

gl

M

$P_j$  = Grade points earned in the  $j$ th course.

$j = 1, 2, \dots, m$  represent the number of courses in which a student is registered up to the semester for which the CGPA is to be calculated.

$C_{al}$  ; Incentive credit in semester

$P_{al}$  = Grade point for participating in incentive activities in the semester

$IP_G$  = GATE incentive grade points.

CGPA is rounded up to two decimal places only and shall not exceed 10.

**Note:**

- As seen from above formula CGPA is **not average** of SGPA.
- DIVISION / CLASS: As per the prevailing norms of the affiliating University and competent authority.

### **N-10.8 Grade Card**

**N-10.8.1** The grade card shall be issued at the end of the semester to each student and will contain the following:

- a) The credits for each course registered for that semester.
- b) The grade points and letter grades obtained in each course.
- c) The total number of credits earned by the student upto the end of that semester in each of the course.
- d) The SGPA and the CGPA.

Refer **Regulation N-10.2 N-10.3, N-10.4, N-10.7 and N-10.9** for computation of grades from the marks and conversion to the SGPA & CGPA.

**N-10.8.2** Grade card will not indicate class or division or rank.

**N-10.8.3** Wherever required the conversion of CGPA to percentage of marks prevailing guidelines from the affiliating University and Competent Authority to be followed.

**N-10.9 Indication of Attempt on Grade Card**

**N-10.9.1** The following Characters will be displayed in the Grade Card to indicate the attempts. The Degree will not have any such indication. The Grade Cards of successive attempts will be separately provided. However a single Grade Card for a semester may be provided after all the subjects of that semester are passed in more than one attempt. But it will be marked 'N' as already said. The student will have to separately apply to the Controller of Examinations for the single semester Grade Card with copies of all the intermediate semester Grade Card along with a fees decided by the Finance Committee.

M - With Re-Sit Examination

N - Not in the First Attempt

IG - Improvement Grade

**N-10.10 Minimum Requirements for the Award of the Degree**

**N-10.10.1** The student should have taken and passed all the prescribed courses including seminar and projects under the general institutional and departmental requirements.

**N-10.10.2** The credits for the courses in which a student has obtained 'P' grade or higher shall be counted as 'credits earned by him/her.
