

NIRF (National Institute Ranking Framework)

NIRF (National Institute Ranking Framework) is a well-defined ranking system for higher education institutions, making it a key decision criterion for admissions. It helps students find the best universities and motivates colleges to strive hard to enhance their services. NIRF also sets standards for education programs, improves global ranking of institutions.

S B Jain Institute of Technology Management and Research, Nagpur strives hard to improve its NIRF Ranking by fulfilling different requirements needed for the same. We focus on different Ranking parameters to satisfy the students' expectations as mentioned below:

- **Teaching, Learning and Resources (TLR):** By this parameter we emphasize on the quality of teaching and learning environment, qualifications and experience of faculty and efficient learning and financial resources.
- **Research and Professional Practice (RP):** By this practice we try for better quality and quantity of research output, such as publications, citations, patents, and projects, as well as consultancy activities.
- **Graduation Outcomes (GO):** It measures the effectiveness of the teaching and learning process in terms of the graduation rate, placement rate, and we strive hard for better placements of our students.
- **Outreach and Inclusivity (OI):** Along with technical skills we try to imbibe the sense social responsibility and inclusiveness of the institution, in terms of the regional and gender diversity of the students, the representation of economically and socially challenged students, and the facilities for physically challenged students.
- **Perception (PR):** We conduct regular surveys and feedbacks that captures the reputation and perception of the institution among the academic peers and employers.

Benefits of NIRF:

- It helps students select the best Institution and university.
- It motivates colleges to strive hard to enhance their services towards the stakeholders.
- NIRF sets standards for education programs so that quality education is imparted to the students.
- Global ranking of institutions improves the reputation of the institution among the peer institutions and industries nationwide.
- Senes of social responsibilities helps to improve of the students in multiple dimensions.
