

Department of
Electronics and Telecommunication Engineering

"Emerge as a center for quality education in Electronics & Telecommunication Engineering, to create competent professionals"

Ref. No.: SBJITMR/ETC Dept./2022-23/ODD/EXT/168

Date: 02/02/2023

To,

The IQAC In-charge,

SBJITMR,

Nagpur.

Subject: Course End Survey and Student Satisfaction Survey reports of Third and Fifth Semesters for Academic Session 2022-23 (ODD).

Respected Sir,

The department has successfully conducted Course End Survey and Student Satisfaction Survey for Third and Fifth Semesters for Academic Session 2022-23 (ODD). The reports of the same are put forth for your kind information.

Thanking you,

Yours Sincerely

Dr. Abhay R. Kasetwar

Head of Department

CC To:

The Principal Office,

Dean Academics

Enclosure:

1. Course End Survey reports of Third and Fifth Semesters.
2. Student Satisfaction Survey reports of Third and Fifth Semesters.

Session 2022-23 (ODD)
Course-End Survey Report

Year/Semester: Second/III

Number of responders: 47/69

Course Name: Engineering Mathematics-III

Course Code: BSCET301T

Questions	% Feedback
Rate your understanding about initial value problem and its solution using Laplace transform?	66.81%
Rate your understanding about the Unit step function & Inverse Laplace Transform?	69.36%
Rate your ability to find Fourier cosine and sine transform?	68.94%
Rate your ability to find Fourier series of functions?	68.51%
Rate your understanding about extremum of the functional by using Euler's equation?	70.21%
Rate your ability to understand D'Moivre's theorem & its applications?	68.09%
Rate your ability to understand Analytic function and Harmonic function?	68.94%
Rate your ability to evaluate complex integral by using Cauchy's formula and Residue method?	68.51%
Rate your ability to understand the concept of method of Separation of Variables?	73.62%
Rate your understanding about evaluation of the solution of Higher order linear Partial Differential Equation with constant coefficient?	71.91%
Total Feedback	69.49%

Course-End Survey Report

Year/Semester: Second/III

Number of responders: 50/69

Course Name: Electronics Devices & Circuits

Course Code: PC CET301T

Questions	% Feedback
Are you able to determine performance parameters of BJT?	62.00%
Are you able to calculate D.C operating point?	59.60%
Are you able to interpret effect of negative feedback on circuit?	62.00%
Are able to identify and design oscillators?	60.80%
Are you able to compare performance of power amplifiers?	59.60%
Are you able to compare stability of different stabilization and compensation techniques?	58.00%
Are you able to solve problems based questions on op-amp?	62.00%
Are you able to design linear application of op-amp?	60.40%
Are you able to design non linear application of op-amp?	64.00%
Are you able to design application using IC555?	62.00%
Total Feedback	61.04%

Course-End Survey Report

Year/Semester: Second/III

Number of responders: 58/69

Course Name: Digital Electronics

Course Code: PCCET302T

Questions	% Feedback
Are you able to understand various numbersystems, conversions and logic gates?	68.62%
Do you able to plot karnaugh map for SOP andPOS form?	68.97%
Do you able to understand the different combinational circuits (MUX, DEMUX etc) andtheir design?	66.90%
Are you able to understand the difference between combinational and sequential circuits?	67.93%
Are you able to understand different types of flip flops?	67.24%
Are you able to understand and design the different types of synchronous and asynchronous counters?	65.86%
Are you able to understand different types shift Registers?	68.62%
Are you able to design sequential Circuit using Melay & Moore FSM?	65.86%
Are you able to understand the Concept of Finite state machines?	66.21%
Are you able to understand the concept of convertors and programmable logic devices (PLD)?	67.93%
Total Feedback	67.41%

Course-End Survey Report

Year/Semester: Second/III

Number of responders: 41/69

Course Name: Network Theory

Course Code: PC CET303T

Questions	% Feedback
Are you able to reduce a given electrical network containing energy sources and impedance to a single source?	63.90%
Are you able to able to calculate the response of a given network (I, V or P) by using either Basic Methods i.e. Mesh and Node Analysis Methods?	65.85%
Are you able to able to calculate the response of a given network (I, V or P) by Special Methods i.e. Network Theorems?	61.95%
Do you the advantages of using Laplace Transform in Network Analysis?	62.93%
Do you that how to model R, L and C in Laplace Domain with or without initial conditions?	61.95%
Are you able to analyze and determine the desired network response in a given network by using Laplace Transform?	60.98%
Do you know that how to calculate a Network Function and identify its poles and zeros for a given two port network?	63.41%
Do you know that how to analyze a given two port network from any parameters of interest?	61.95%
Are you able to design a series or parallel resonant circuit to meet the given specifications?	60.98%
Do you know the characteristics of passive filters and how to design them to meet the desired specifications?	59.02%
Total Feedback	62.29%

Course Name: Object Oriented Programming
& Data Structure

Course Code: PCCET304T

Questions	% Feedback
Do you have adequate knowledge about Object Oriented Programming concepts such as Class, Object, Access Control, Scope Resolution Operator, Constructor, Destructors?	67.00%
Would you be able to construct a class & its objects and demonstrate their use in problem solving?	70.50%
Are you familiar with overloading and inheritance used in problem solving?	70.00%
Are you familiar with the concepts of Data Structures such as Array, Linked List, Stack, Queue, Tree etc.?	69.50%
Would you be able to identify and apply suitable data structures depending upon the given data sets?	67.00%
Will you be able to apply the concepts of arrays and linked list in the implementation of stack and queue?	69.00%
Can you apply and analyze suitable sorting technique for a given data set?	67.50%
Will you be able apply appropriate searching techniques for a given problem statement?	70.00%
Will you be able apply appropriate searching techniques for a given problem statement?	69.50%
Will you be able to create an application using the concepts of Object Oriented Programming & Data Structures?	68.00%
Total Feedback	68.80%

Report on Action Taken against Course End Survey

**Year: Second & Third
Semester: IV & VI**

Date: 19/06/2023

- The Head of department has discussed the feedback of course end survey with all the faculty members of IV semester and VI semester.
- For the courses with satisfactory feedbacks in IV and VI semesters, the Head of Department appreciated the respective faculty members and motivated them to further enhance their performance in the respective courses.
- In Third year, for the courses Digital System Design Lab and Software Workshop Lab the feedbacks were reported below satisfactory. The Head department had a detailed discussion with the concerned faculty members, and asked them to bring necessary changes in teaching methodology so that expected outcomes of the respective courses can be attained.

Date: 19/06/2023

- The Student Satisfaction Survey was successfully conducted by the Department and the following points were identified after the analysis of the survey.
- The feedback against various points of Part-A (Teaching and Learning Process) and Part-B (Institutional Facilities and Support) of survey was reported well in Third year.
- In Second year the feedback against various points of Part-A of the survey was reported well but in Part-B against Sports Facility and Internet Facility the feedbacks were reported below satisfactory. As a corrective action against these points the Head of Department will convey the issues to the Principal of the institute for necessary actions.

Report on Action Taken against Student Satisfaction Survey

Year/Semester/Section: Fourth/VIII/A&B

Date: 18/05/2023

Sr. No.	Identified Issues	Action Taken/Plan
1	Less theory and more practical to get the real knowledge.	Head of department has instructed all the course in-charges of those courses which do not have practical, to relate the theoretical concepts with maximum possible practical applications.
2	More job opportunities.	The issue has been conveyed to training and placement officer of the institute and the department has also taken an initiative to arrange the placement drive for the students.
3	Skills related clubs for the growth of the students.	Already in function.
4	Water Filters	The issue has been conveyed to Principal of the institute.
5	Improve wifi facility	
6	Give attention to students who are weak in studies.	Head of department has instructed all the course in-charges to give special attention to the students who are academically weak.

Q. No.	Question	% Response
Microwave and RADAR Engineering (TH)		
Q.1.	Are you able to understand the high frequency limitation of solid state devices?	75.22%
Q.2.	Have you gained knowledge of the function of microwave generators and amplifiers?	76.96%
Q.3.	Are you able to understand various Tees along with their power distribution?	77.39%
Q.4.	Are you able to evaluate the scattering matrix of passive microwave components?	75.22%
Q.5.	Are you able to understand Transferred Electron devices such as Gunn diode, Avalanche diode?	76.52%
Q.6.	Have you gained knowledge of microwave measurements?	76.52%
Q.7.	Are you able to analyse the complexities in microwave measurements?	74.78%
Q.8.	Have you understand radar working principle?	76.09%
Q.9.	Are you able to gain knowledge of various Radar systems?	74.35%
Q.10.	Are you able to analyse the practical challenges in existing radar system?	76.96%
Average Feedback		76.00%
Computer Communication Networks (TH)		
Q.1.	Are you able to understand basic concepts computer communication network?	76.52%
Q.2.	Are you able to Understand the requirement of theoretical & practical aspect of computer network?	76.09%
Q.3.	Are you able to differentiate between networking devices like Hub,Switch & Router?	75.65%
Q.4.	Are you able to Understand various types of computer Topologies?	76.09%
Q.5.	Are you able to define various types of OSI layer and their respective protocol?	77.83%
Q.6.	Are you able to understand basic IP addressing scheme?	76.52%
Q.7.	Are you able to Understand the basic concept of congestion control & network traffic in computer network?	76.52%
Q.8.	Are you able to Understand the basic Concept of computer network security & administration?	76.52%
Q.9.	Are you able to Understand the different wired & wireless LAN standards?	77.39%
Q.10.	Did this subject make you comfortable to choose career in Networking?	78.26%
Average Feedback		76.74%
Wireless and Mobile Communication (TH)		
Q.1.	Are you able to understand fundamental canons of cellular radio system?	78.26%
Q.2.	Are you able to learn the statistical models of multipath fading and model radio signal propagation issues and analyze their impact on communication system performance?	76.96%
Q.3.	Are you able to understand different types of equalization techniques and diversity concepts?	76.52%
Q.4.	Are you able to understand the Wireless communication systems and standards i.e. GSM, IS-95?	76.96%
Q.5.	Are you able differentiate wireless and fixed telephone networks and identify how internet is accessed over mobile devices?	78.70%

Q.6.	Are you able to learn types of wireless LANs which are classified according to transmission technology and wireless network protocols?	76.09%
Q.7.	By the end of the course what level of change have you noticed in taking the “Wireless & Mobile Communication” challenge by yourself?	76.96%
Q.8.	Are you able to identify, formulate and analyze engineering problems using principles of mathematics and engineering sciences in field of Wireless and Mobile communication?	76.52%
Q.9.	Did this subject make you comforted to understand the Wireless and Mobile Communication?	79.13%
Q.10.	Are you able to understand the evolution and history of wireless technology used in wireless communication?	76.09%
Average Feedback		77.22%
Digital Image Processing (TH)		
Q.1.	Are you able to understand basic concepts of Digital Image Processing?	76.96%
Q.2.	Have you gained knowledge of the different types of images?	77.39%
Q.3.	Are you able to understand Image sensing and acquisition, sampling and quantization?	75.22%
Q.4.	Are you able to understand various Image Enhancement Techniques?	74.35%
Q.5.	Are you able to apply Histogram Processing Technique?	76.52%
Q.6.	Are you able to apply different transformation methods on given Image?	76.09%
Q.7.	Are you able to apply Hough transformation methods on given Image?	78.70%
Q.8.	Are you able to understand Huffman coding, LZW coding, Arithmetic coding?	75.22%
Q.9.	Are you able to differentiate between Lossless and Lossy Predictive Coding?	76.52%
Q.10.	Are you able to apply different algorithms on given Images?	74.78%
Average Feedback		76.17%
Satellite Communication (TH)		
Q.1.	Are you able to understand basics of orbital aspects of satellite and the space craft system	81.30%
Q.2.	Are you able to understand Satellite link Design such as uplink and downlink design, G/T and C/N ratio	74.78%
Q.3.	Are able to learn Multiple Access Techniques such as FDMA, TDMA, CDMA, DAMA?	82.17%
Q.4.	Are you able to learn Propagation Effect, Rain, ICE, Land Effects on the satellite?	80.87%
Q.5.	Are you able to learn various Error Detection and Correction techniques?	81.74%
Q.6.	Are you able to learn Earth Station Design and equipment for the earth station?	81.74%
Q.7.	Are you able to learn different applications of satellite depending on its orbits	79.57%
Q.8.	By the end of the course what level of change have you noticed in taking the “basics of Satellite Communication” challenge by yourself?	81.30%
Q.9.	Did this subject make you comforted to understand the basics of Satellite Communication field?	82.17%
Q.10.	Are you able to identify, formulate and analyze engineering problems using principles of mathematics and engineering in the field of satellite communication?	81.74%
Average Feedback		80.74%
Microwave and RADAR Engineering (PR)		
Q.1.	Are you able to handle and efficiently setup the microwave test bench?	79.57%
Q.2.	Are you able to verify the port characteristics of all microwave components?	79.57%
Q.3.	Are you able to calculate the performance parameters of all solid state devices?	80.43%
Q.4.	Are you able to classify the radiation pattern for different antennas?	80.87%
Q.5.	Are you able to analyse the working principle of various Radar systems?	78.70%
Q.6.	Are you able to characterize the radar systems based on their performance parameters?	78.26%
Average Feedback		79.57%
Computer Communication Networks (PR)		
Q.1.	Are you able to be aware of the different types of computer network troubleshooting commands?	76.52%
Q.2.	Are you able to justify where to use cross-wired cable and straight through cable?	76.09%
Q.3.	Are you able to Implement a simple LAN with hubs, switches and Routers?	78.70%

Q.4.	Are you able to design and simulate network layer protocols (Like TCP & UDP) within a simulated networking environment?	76.96%
Q.5.	Are you able to Design & Simulate different network topology within a simulated networking environment?	76.96%
Q.6.	Are you able to Design & Simulate different routing protocols within a simulated networking environment?	76.96%
Average Feedback		77.03%

Session 2022-23 (EVEN)

Course End Survey Report

Date:03/05/2023

Class: 4th Year / 8th Semester (Section-B)

Class Incharge: Prof. Mayur Temburney

No. of Participants involved in Feedback: 47

Q. No.	Question	% Response
Microwave and RADAR Engineering (TH)		
Q.1.	Are you able to understand the high frequency limitation of solid state devices?	75.32%
Q.2.	Have you gained knowledge of the function of microwave generators and amplifiers?	74.89%
Q.3.	Are you able to understand various Tees along with their power distribution?	74.89%
Q.4.	Are you able to evaluate the scattering matrix of passive microwave components?	71.49%
Q.5.	Are you able to understand Transferred Electron devices such as Gunn diode, Avalanche diode?	72.77%
Q.6.	Have you gained knowledge of microwave measurements?	71.49%
Q.7.	Are you able to analyse the complexities in microwave measurements?	74.89%
Q.8.	Have you understand radar working principle?	71.49%
Q.9.	Are you able to gain knowledge of various Radar systems?	73.19%
Q.10.	Are you able to analyse the practical challenges in existing radar system?	71.06%
Average Feedback		73.15%
Computer Communication Networks (TH)		
Q.1.	Are you able to understand basic concepts computer communication network?	75.74%
Q.2.	Are you able to Understand the requirement of theoretical & practical aspect of computer network?	71.91%
Q.3.	Are you able to differentiate between networking devices like Hub, Switch & Router?	74.47%
Q.4.	Are you able to Understand various types of computer Topologies?	75.32%
Q.5.	Are you able to define various types of OSI layer and their respective protocol?	72.34%
Q.6.	Are you able to understand basic IP addressing scheme?	75.32%
Q.7.	Are you able to Understand the basic concept of congestion control & network traffic in computer network?	74.89%
Q.8.	Are you able to Understand the basic Concept of computer network security & administration?	74.47%
Q.9.	Are you able to Understand the different wired & wireless LAN standards?	74.47%
Q.10.	Did this subject make you comfortable to choose career in Networking?	74.47%
Average Feedback		74.34%
Wireless and Mobile Communication (TH)		
Q.1.	Are you able to understand fundamental canons of cellular radio system?	73.62%
Q.2.	Are you able to learn the statistical models of multipath fading and model radio signal propagation issues and analyze their impact on communication system performance?	74.47%
Q.3.	Are you able to understand different types of equalization techniques and diversity concepts?	72.34%
Q.4.	Are you able to understand the Wireless communication systems and standards i.e. GSM, IS-95?	74.04%
Q.5.	Are you able differentiate wireless and fixed telephone networks and identify how internet is accessed over mobile devices?	73.62%

Q.6.	Are you able to learn types of wireless LANs which are classified according to transmission technology and wireless network protocols?	74.47%
Q.7.	By the end of the course what level of change have you noticed in taking the "Wireless & Mobile Communication" challenge by yourself?	74.04%
Q.8.	Are you able to identify, formulate and analyze engineering problems using principles of mathematics and engineering sciences in field of Wireless and Mobile communication?	74.47%
Q.9.	Did this subject make you comforted to understand the Wireless and Mobile Communication?	74.89%
Q.10.	Are you able to understand the evolution and history of wireless technology used in wireless communication?	74.04%
Average Feedback		74.00%
Digital Image Processing (TH)		
Q.1.	Are you able to understand basic concepts of Digital Image Processing?	76.17%
Q.2.	Have you gained knowledge of the different types of images?	74.04%
Q.3.	Are you able to understand Image sensing and aquazition, sampling and quantization?	75.32%
Q.4.	Are you able to understand various Image Enhacement Techniques?	72.77%
Q.5.	Are you able to apply Histogram Processing Technique?	76.60%
Q.6.	Are you able to apply diffrent transformation methods on given Image?	73.19%
Q.7.	Are you able to apply Hough transformation methods on given Image?	74.89%
Q.8.	Are you able to understand Huffman coding, LZW coding, Arithmetic coding?	73.19%
Q.9.	Are you able to differentiate between Lossless and Lossy Predictive Coding?	72.77%
Q.10.	Are you able to apply diffrent algorithms on given Images?	74.47%

Program Exit Feedback Report

Date:03/05/2023

Class: 4th Year / 8th Semester (Section A & B)

No. of Participants involved in Feedback:

93

Q. No.	Question	% Response
Q.1.	To what extent you have been imparted the knowledge of Mathematics, Science and basic engineering?	72.69%
Q.2.	To what extent you have developed your abilities to identify analyze complex engineering problems with efficient conclusions using principle of mathematics and engineering sciences?	74.64%
Q.3.	To what extent your learning in the programme has developed your abilities to design a practical system or a process to meet desired societal needs?	73.34%
Q.4.	Whether your research based knowledge is sufficient enough in identification of complex problems and to provide valid conclusion?	74.63%
Q.5.	Are you been able to possess ability to use the techniques, skills and modern engineering tools necessary for engineering practice?	73.77%
Q.6.	Have you been made aware regarding potential of your engineering knowledge for providing solutions to global, economic and social needs?	73.57%
Q.7.	To what extent you are being capable of understanding the impact of engineering solutions on environment and society and to justify for sustainable development?	73.98%
Q.8.	Has the programme provided you a reasonable understanding of your professional and ethical responsibilities?	72.91%
Q.9.	Have you been able to develop abilities to function effectively as an individual as well as to work in multidisciplinary teams?	74.63%
Q.10.	To what extent you have been capable of enhancing your communication skills and to communicate effectively with engineering community?	73.99%
Q.11.	Have you developed project management skills as well as financial sense for efficient management of projects?	73.55%
Q.12.	Are you prepared to dedicate yourselves in lifelong learning through education context or any research related activities?	74.63%
